

# Vine & Hollywood Projects Fact Sheet

Project # 0001605/CFHWY00323, 0001627/CFHWY00463, 0001686/CFHWY00392

## Project Background

The Alaska Department of Transportation and Public Facilities (DOT&PF), in cooperation with the Federal Highway Administration, is undertaking three projects to improve Vine Road and Hollywood Road in the Matanuska-Susitna Borough (Mat-Su). Project descriptions and a project area map for each project are below.

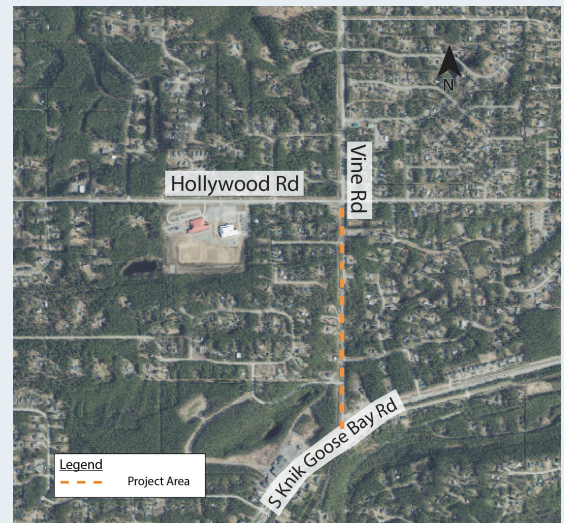

### ① Vine Road Reconstruction: KGB Road to Hollywood Road

DOT&PF is developing a project to reconstruct Vine Road between Knik - Goose Bay Road and Hollywood Road. The project will reconstruct 0.6 miles of existing two-lane road to increase capacity, address safety, and meet current design standards. Improvements may include:

- reconstructing the roadbed
- drainage improvements
- widening shoulders
- signing and striping
- adding a pedestrian pathway
- ADA improvements

Right-of-Way (ROW) acquisitions and utility relocations will be necessary.

Purpose & Need: Address capacity needs, safety improvements, and improve roadway geometry to current design standards.

### ② Highway Safety Improvement Program (HSIP): Vine Road at Hollywood Road Intersection Improvements

DOT&PF is developing a project to improve the intersection of Vine Road and Hollywood Road in Wasilla, Alaska. Improvements will include installation of a single-lane roundabout and may also include:

- improved drainage
- illumination
- pedestrian accommodations
- signing and striping
- landscaping
- ADA improvements

Right-of-way (ROW) acquisitions and utility relocations will be necessary.

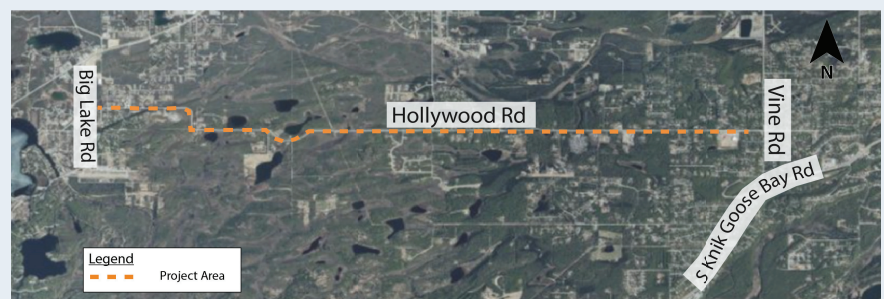

Purpose & Need: This project is being developed and funded through the Highway Safety Improvement Program (HSIP). The project proposes to improve intersection safety and provide pedestrian accommodations.

### ③ Hollywood Road: Vine Road to Big Lake Road Pavement Preservation

DOT&PF is developing a project to resurface Hollywood Road between Big Lake Road to the west and Vine Road to the east.

Purpose & Need: Extend the surface life of the roadway and reduce maintenance costs.
